**BEAUTIFUL BAY-WAVELAND.**

In our last week's issue of Friday, April 27th, there appeared an original, unique synopsis "all in poetry" of Bay-Waveland in the Echo, also the New Orleans Times-Picayune, Item-Tribune and Daily States and it will also appear in the May or June issues of four magazines of national circulation.

The author of this Bay-Waveland synopsis is conservative in his assertions and there is no exaggeration in any of his statements and Bay-Waveland is fortunate in having a citizen "owning only his home here" who has the ability mentally, also financially, to give us the New Orleans and national publicity we are now beginning to receive.

If the Jones flood control bill passes, as is expected, the substantial, "if not sensational," growth of New Orleans is assured and the editor of the Echo, also the author of the poetical synopsis of Bay-Waveland, believe 85 per cent of transient or permanent Bay-Waveland population will primarily come from New Orleans, partly because of Bay-Waveland's natural advantages, but principally on account of its proximity and extremely low commutation rates of the L. &amp; N. Ry., a good bus service by the Tech Transfer Co., and last, but not least, our now good bridges and auto roads.

**KING'S DAUGHTERS GROUP CONFERENCE.**

Group conference, King's Daughters, held in Bay St. Louis on Thursday of last week, with Mrs. Geise, State president, and conducted by Mrs. A. F. Fournier, State vice president, was productive of the usual good such gatherings produce.

The deliberations brought out effectively the good the organization is accomplishing throughout the State. There were several splendid papers read, practical and appealing, and all in all the session proved one of constructive interest.

The visitors were loud in their praise of the hospitality of the people of the Bay City.

**BRINGS RECORD PRICE.**

The original manuscript of "Alice in Wonderland" was recently purchased in London for \$75,259. The author, Charles Lutwidge Dodgson, who use the pen name of "Lewis Carroll," wrote the story for the pleasure of a wee friend and it was a labor of love for him.

Of course, everyone is familiar with the wonderful story, which has amused children all over the world, it is interesting to speculate upon the vagaries of human mind which paid this much for the manuscript. It is a record price, but not the highest ever paid for a manuscript. The love of the book and the author's name are the factors which made the price so high.

**DEPLORABLE ACCIDENT.**

All accidents are deplorable, but none carry more regret as that which occurred Saturday when our esteemed countryman, Sidney Otis, secretary-treasurer of the H. Weston Lumber Company, of Port Town, was seriously injured in an automobile smash-up against a wire pole as direct result of an apparently irresponsible driver of another car.

Mr. Otis, long identified with the manufacturing industry of this section, the general development of Hancock and adjacent counties, a factor in its constructive forces, and well-known for his qualities and practices of all that stands for nobility of character and the general uplift of mankind; and past the meridian of life, was on his way to New Orleans. Peacefully traveling, with his family, the car driven by his son, Lamar, noted for his conservativeness and all that is correct, was the victim of circumstances that all were undeserved.

A car ahead, one of those ramshackle relics of other days, was driven by a colored youth from Wiggins, turning short in midroad and at angle from which there seemed no escape. In order to avoid a broadside collision, the driver of the Otis car quickly swerved to the side as a last and only resort. A pole carrying wire met the car with terrific impact. The pole was broken at its base and the tragedy of accident followed.

Every resident of this section and elsewhere were extremely pained to hear of the accident and there is general solicitation for the early recovery of Mr. Otis, and other members of his family, who were comparatively slightly injured, for early and permanent recovery.

The Sea Coast Echo, in common with the many friends and acquaintances, voice every expression that is tender and hopeful.

**SINCLAIR'S ACQUITTAL.**

The acquittal of Sinclair in Washington last week where he was tried on a criminal charge of conspiracy has caused some people in the country to wonder whether the Supreme Court or the jury was wrong.

The United States Supreme Court was emphatic in denouncing the conduct of the oil magnate in his relationship to Fall, but catch the oil, the Supreme Court dealt with a civil case, not a criminal charge. The defense that is required to convict a defendant must be "beyond a reasonable doubt," while to win a civil verdict only requires the "preponderance" of the evidence.

Conspiracy is a hard charge to prove, and, it may be, that the jury, giving the defendant the benefit of the doubt, to which he was legally entitled, had to do just what their verdict meant. The fact that Sinclair was acquitted of the criminal charge of conspiracy does not, at all, mean that he was entirely free from guilt in his relationship with a cabinet official, or that his lease of the oil reserves were not obtained, as the highest court says, by fraud and corruption.

In fact, the secrecy of the negotiations, the long silence of the participants, the attempt to hide the source of the money acquired by Fall, the flight of important witnesses and other details point overwhelmingly to a guilty knowledge on the part of the participants in the leases. If the truth is, as the jury found, why was Sinclair and Fall and Doheney and all the other men mixed up in the oil scandal so reluctant to tell the truth? If, as the jury found, Sinclair is innocent, why did he not come forward when suspicion attached to the leases and tell the story that he now tells?

**FREE BRIDGES AND RESULTS.**

Result of free bridges and ferries is well exemplified in the success which has come to this section as a result of the medium of quicker and better auto transportation.

Aside from the every-day influx of visitors to this immediate section, every week-end attracts thousands of cars and their occupants out from New Orleans and other points to Bay St. Louis and the Gulf Coast in general.

Thousands motor from New Orleans. Caravans like, the thread of travel begins to pick up from New Orleans hither by Thursday evening and by Friday P.M. to late Saturday night and Sunday morning there is one long line. The lure of the Mississippi Gulf Coast is compelling. Those who come to spend a day or two, and even for one day on Sunday, return home amply repaid for their trip. The recurrent return trips are best witness to this statement.

Hancock and Harrison counties, with co-operation of State Highway Department, have rendered this immediate section a service in the construction of free bridge over the waters of Bay St. Louis that cannot be estimated and neither to be computed in dollars and cents. Our bridge is not only an outstanding improvement, but an achievement and as such will live. Hundreds of thousand, millions in course of time, will benefit by this betterment. We notice our sister cities on the west—New Orleans and Mobile on the east equally enjoy and profit by the vision of those who have made free bridges and free ferries possible, and the willingness of those whose stipends defray the comparatively negligible costs in dollars and cents.

May the tribe born of this spirit increase!

**WHAT MAKES IT WORTH \$360,000?**

What is it that makes a painting by Gainesborough, depicting "The Harvest Wagon," a rustic scene wherein a cart, laden with peasants and faggots, halts to enable a young girl to climb on board, sell for \$360,000.

We can't answer the question but it is a trait of mankind to value the old and the rare. The fact that only one original of a book, or a manuscript, or a painting, is in existence adds a "value" which never existed during the lifetime of the painter or author.

There are a number of artists in the other world who, if they keep up with mundane affairs, must worry over the huge amounts of money they missed when they observe the high prices their goods bring today. And, it may be, that true to the ideals that moved them, they are not interested in price, but yawn at their present work and remark facilely upon the foolishness of mankind.

**PURE WATER AND STRONG DRINK.**

Dr. William J. Mayo comes forth with a very interesting theory concerning prohibition, which he says came about with the introduction of pure and dependable water supplies, the product of civilization.

The people of France and Italy, according to Dr. Mayo, took to wine drinking because their water supplies were unsafe and if they had relied upon water of the kind available would have died. Germany, in like manner, turned to beer and England to ale and tea. As soon as water became safe and palatable, arrived the greater number of the people immediately preferred it.

This theory is intriguing. More interesting, however, is the theory that the introduction of means cool and quenching the thirst rather than anything else could account for the change in the taste of the people.

The original manuscript of "Alice in Wonderland" was recently purchased in London for \$75,259. The author, Charles Lutwidge Dodgson, who use the pen name of "Lewis Carroll," wrote the story for the pleasure of a wee friend and it was a labor of love for him.

BY ARTHUR BRISBANE.

(Copyright, 1927)

The German and Irish fibers insert the words: "Thank God" or "By the Grace of God," in every message describing their safe landing through fog and storm across the ocean after the six hours of danger.

The professional atheist, unwilling to believe anything that "has not been proved to him," would find his opinions changing, in a big, earthquake, or above the ocean in a fog.

Senators denounce the high price of books.

Mr. McKellar, from Tennessee, says: "Novels worth 'two bits' can not be bought for less than \$2."

The price of novels is not so important. But the high cost of books containing positive knowledge, that would enable uneducated millions (including many college graduates) to educate themselves, is disastrous.

That a book should be sold for four or five times what it costs to produce it, is as bad for the publisher and for the author, as for the reading public.

When will American business, generally, learn that big sales with small profits, as shown in the automobile industry, are most profitable.

Lindbergh took thirty-six young Pacific Coast girls up in the air, in installments yesterday, giving those charming creatures something to talk about forever.

Women may thank the good Lord for granting the flying machine. They can fly on the average as well as any man, and the airplane is another step toward real equality.

Effort to abolish the unwise tax on automobiles develops the fact that the Government collected a thousand million dollars from automobile owners and spent only six hundred millions on better roads—not far to the men that pay for the cars, "war tax included."

The war ended some time since and the life and move about more and eat less our figure would show it.

Exercise for the sake of exercise is pretty hard to take, but exercise performed in the course of one's daily duties is not so hard.

One ought to arrange one's life as much as possible to wait on one's self.

The necessary action of the body in attending to one's needs will have a great effect upon one's shape.

I met a man in Paris some years ago and when I asked him on behalf of a friend where a good valet could be secured he replied that he did not know about valets, as for some years he had been trying to see how many things he could get along without and not how many things he could get.

See how much you can do without and arrange your life as much as possible so that you have to wait on yourself and you will not have much trouble with your figure.

A company is former to build seadromes, ocean landing places to be scattered over the Atlantic. The theory is that trans-Atlantic airplanes would land, get fuel and start again.

But by the time the Atlantic is dotted with seadromes, planes will fly across the Atlantic as easily as they now fly across the English Channel.

In the second place, if it is hard for fliers in somewhat foggy weather to find the Hawaiian Islands in the Pacific, how difficult would it be for them to find a landing place "out" in the Pacific? As hard as finding a turtle asleep on the Pacific.

Dr. Winifred Sackville Stoner, who is a lady, says: "Man is superior to woman, mentally, physically, artistically and psychologically."

That is not all true, especially the "physically and psychologically" part of it. But suppose it were all true. Michael Angelo's Moses is a finer product than Michael himself. But Michael Angelo made it.

Whatever a man is, some woman made him, and the producer is nobler than the product. Better be a cocoanut tree than a cocoanut.

A young boy, his spine straightened in hospital, seems to have had his mind "straightened" at the same time. Before the operation he delighted in pulling wings off flies, and other cruelties. That is ended.

## Why He Didn't Pay.

We have heard of many reasons for not paying bills but the following clipping from "Tobacco" gives real reasons.

"I have your statement showing that I owe you \$769.80, and I am enclosing check for \$5, for which please send me a receipt," writes a retailer to a jobber.

"I am sorry that I cannot pay you more at the present, as I am unable to collect from my customers, as money is so scarce right now."

"My own living expenses are terrible, and with my store and my farm I can hardly get along. I will try to send you another payment of \$5 when I sell my hay, which should be in June. I cannot pay you more at that time for daughter finishes at Bristol this year, and that costs a heap of money."

"I thought I could send you a check when I got my tobacco money, but it took all I could rake and scrape to put in the new lights, as my wife did not have electricity to run the sewing machine and the vacuum cleaner. Then, too, we had to build a shed for the Ford, so we could put the new Cadillac in the garage and build a concrete bridge over the brook in our front lot, as well as a new road, so we could get in and out better."

"I can't send you the corn money in the fall, because my son is going to college, and, although the lads of today are very economical about hats and garters, still, a coon skin coat costs the old man a lot, and even junk-yard Fords come rather high by the time they are decorated for college use."

"I might send you the hog money, but the missus and I have planned a trip to Niagara in the fall, and after being working hard all these years, I think it deserves a trip. We can't go before June, for she is having the house re-decorated and re-finished, taking out all the ratty plush and putting in overstuffed chintz and mahogany. This is a terrible strain on my finances, especially as the new well that was needed closer to the house and the new up-to-date barn have to be paid for."

"All the farmers here are in a hard place, financially, with strawberries this season at seventy-five cents a quart and the price of gasoline as it is. Then, too, there is an epidemic among the married women to have their plain gold wedding rings platinized and set with diamonds, and everybody is having their tonsils and teeth removed."

The young woman in the stern of the little boat had whispered softly the word "yes." "But stay right where you are, Jack," she said hastily. "If you try to kiss me you'll upset the boat."

"How do you know?" hoarsely demanded Jack, a horrible suspicion already taken possession of him.

## WEEKLY ECHOES FROM ST. STANISLAUS COLLEGE

### Sports.

The track men are still at hard work preparing for the coming track meet with Jesuit High School of New Orleans. The date is not certain as yet, but the meet may be held on the thirteenth of this month. Friday, the thirteenth, is said to be an unlucky day, but in this case only one team can be unlucky and so let's hope it won't be ours. The Jesuit's fleet-footed men may come over to the Bay or the College "cinder burners" may go to New Orleans for we are unsettled as to the place of battle. There is no doubt that the boys are hoping to go to New Orleans because it means a nice trip and a chance for a good many of them to visit their parents. An occasion such as this does not happen often.

A set of new hurdles are in the state of building now and will be ready for use in a few days. There are quite a few "new hurdlers" out and some are very promising material.

Our poor friend basket ball is altogether forgotten. All we seem to think of now is base ball. From this we see that the sports change as the seasons change in the same manner as a woman's hea draggala varies with the different seasons. One takes a big risk when walking across the campus at the noon recess for he's likely to be hit on the head by a base ball. Base balls are very plentiful now and are flying in all directions.

Last Sunday, April 29, Stanislaus bucked up against the Realtors of New Orleans. The Realtors played a fine game clean in every respect. They were under the management of Marius Jaubert, a former Stanislaus man. Mr. Jaubert's team was a dandy for material. In the beginning it seemed as if the Realtors would give our boys a hard run, but things changed in the third inning when little "Pizén" Toca clubbed one out for a home run, with two men on base. Right here our boys took a nice lead and kept marking them up until the end. Collier pitched a splendid game and showed some fine bunting. He sent one into center field and made all the bases but home. There he was tagged. The game was called at the end of the eighth inning with a score of five to thirteen in our favor.

Thursday, May 3rd, the Rockaway "bill sockers" will battle against the Picayune "peach pickers." Picayune ought to be in good shape at this time of the year because the young peaches need spraying now and then and of course the peaches are hard work. The Rocks are hard at work also. Every evening there is hard practice at the green. The team will go by automobile to Picayune where the next game will be played.

So far the season is very successful, the Rocks having won three games out of four played. Biloxi accounts for the lost game and we have only one excuse, if you wish to call it that, for this game and it is that we were just entirely out-classed.

At last the long wished for reward has come. Our state champion high hurdler, none other than E. J. "Icky" Lacoste, has just received his silver medal for proficiency in the art of jumping over high obstructive objects. He is quite proud of the medal, as proud of it as we are of him, and we don't blame him for being a state champion is something to feel big about.

Sunday, May 6, the Varsity team plays the Knights of Columbus from New Orleans.

### School News.

The Juniors have completed their two-year course in algebra and will study plane geometry for the remainder of the session under the direction of Bro. Peter. The Juniors must have a great liking for mathematics as it usually takes the average class two months to finish the work they accomplished in eight. We hope they will keep up the good work and go through geometry as they did their algebra.

Many boys devoted their spare time in the evening after school to making new hurdles for the college track team. Their fine spirit and willingness to help is greatly appreciated by the members of the track team. Bro. Peter supervised this work and assigned to each boy a task that was done to the best of his ability. Some of them were made painters while others proved to be more adept at carpentry and these were given the job of cutting the strips for the hurdles. The work was completed last Tuesday evening.

May devotions began on the first of the month. The student body of St. Stanislaus celebrated this great event by going to Holy Mass and Communion on that day. Every evening there will be benediction of the Blessed Sacrament, in addition to some special service in honor of the Blessed Virgin.

The water is getting warm and in about two weeks the college boys will be seen running eagerly to the bathhouse to don their bathing suits for a dip. Bro. Cyril, who has charge of the athletic shop, is ordering the best swimming suits available in preparation for the big rush for new

According to reports current in New Orleans, the long vacant site of the Old French Opera House, a historic location, is soon to be occupied by a three-story modern apartment house to be erected by Walter Cook Keenan at a cost of \$500,000.

The site is said to have been bought by Mr. Keenan from the Board of Administrators of Tulane University for \$15,000 with the understanding that the ground will be used for the proposed structure.

According to reports, the new structure will be a modern apartment house, three stories high, with a large ground floor.

**ROCKACHAWS WIN  
FROM NEW ORLEANS  
REALTORS, 11 TO 5**

**"Cotton" Collier Allows But  
Four Hits and Fans Eleven  
Toca Gets Homer.**

Grady Perkins' fighting Rockachs added another seal to their collection last Sunday by taking the Realtors of New Orleans into camp to the tune of 11 to 5. The game was called at the end of the seventh inning in order to allow the visitors time to catch their train for home.

"Cotton" Collier, the stocky ace of Stanislaus, was on the mound with "Wop" Glover on the receiving end, and twirled an excellent game, allowing but four hits, two that came in the first, one in the third and one in the seventh and struck out eleven batters.

Marius Jaubert, familiarly known as "Prof," an old back-stop ace of the Rockachs, was the pilot of the Realtors and had two ex-Rocks in his line-up in the persons of Charley "Midnight" Jaubert and Stanley "Hoot" Baron.

Courtin was on the mound for the Realtors, but after the fatal fourth when the Rocks found him for five hits (one a homer by Toca) and seven runs, he gave way to "Midnight" Jaubert, who allowed but two hits in two innings.

The visitors started off as though they meant to show the old college up and scored two runs on a couple of hits and two grave errors, but that was the extent of their damage for Cotton tightened up, struck out the next man and the third went out easily short-to-first.

How the runs were made: "Hoot" Baron led off for the Realtors and fanned the air for the first 'out'; Ruckert went safe on Spor's error, took second on Cointinent's single to left garden and scored on Charlie Jaubert's single to left. Cotton tried to heave Jaubert out at second and the ball went wild, Cointinent tallying. Cotton got the starboard wing to working then, and Stratton whiffed. Lagarde died short to first.

In their half of the second period the Rocks got on Mr. Courtin, and when the smoke cleared, had piled up ice on seven runs for a winner. "Dutch" Fabacher lined safe through pitcher, Cantaro bunted to sacrifice, but Ruckert ran in to the ball, leaving first uncovered and Cantaro was safe; Kenner doubled to center, scoring Fabacher; Fernandez hit a liner to the hot corner that had sparks on it and Stratton didn't handle it; Cantaro scored. Collier was down—pitcher to first—Piven Toca got one in the groove and it played a known wildball to left field for a home, scoring Kenner and Fernandez. "Pots" Perre got a free trip, but Spor whiffed and Glover was down, second to first. A total of four counts and five hits.

The Realtors tied the score in the third on an error, a walk and a clean single; Ruckert went safe on Cointinent's wobble, took second as Cointinent drew a pass and scored when Charlie Jaubert laced one into left center. With Cointinent on third Glover pegged to second to catch Charlie and Cointinent scored.

Nothing happened till the fatal fourth and then a plenty. Cotton hit to short and Cointinent jiggled. Toca walked, Perre forced Cotton at third. Spor singled to left, "Wop" Glover laced out a double, scoring Toca and Perre. Fabacher singled, scoring Spor and Glover. Cantaro walked, Kenner flew to Baron, who dropped the ball, Fabacher scoring. Fernandez was out, Courtin to Ruckert. Cantaro made a dash for home and

**Bay Bull Dogs Defeat  
Pass Christian Tigers**

On Sunday, April 29th, the Bay Bull Dogs defeated Pass Christian Tigers, 18 to 15. It was an interesting game from start to finish. The Pass Christian boys gave a fair and square game Sunday before last and they received a fair game last Sunday.

The line-up was as follows: Bull Dogs—Laurent (Capt.) Frank Noto, rf; John Kimball, cf; Horatio Farve, lf; Vestel Farve, 2b; Orest Laurent, 3b; Roland Choma, ss; Harold Farve, 1b; Mouse Toca, c; John Lader, p.

Pass Christian Tigers—Anderson (Capt.), Arthur, cf; Anderson, p; Clay, 2b; Van, ss; Frank, 3b; Ralph, lf; Lester, rf; Billy, lf; Francis, p.

**COAST STARS WANT GAME.**

The local Coast Stars defeated Gulfport to a score of 8 to 6.

J. V. Bontemps played a good game in the field.

The Coast Stars will play Lakeshore Sunday at Lakeshore diamond.

Any game wanted with the Coast Stars write to Captain Manuel Mauri, Box 254, Bay St. Louis, Miss.

Ruckert threw wild permitting Kenner to follow Cantaro. Collier laced out a beauty to deep center, but was caught attempting to stretch it into a Homer.

"Midnight" Jaubert relieved the jaded Courtin and was air tight. The Realtors added a tally in the last inning on two hits and bad pegs.

Reggio hit safe second. M. Jaubert and Ruckert were easy outs.

Reggio going to third on the plays and scored when Cointinent singled over third. Stratton fanned to end it all.

When putting away the woolens, let us not forget that modern science teaches us several interesting things about moths.

First, that contrary to old beliefs, FLYING MOTHS DO NOT EAT WOOL.

It is the tiny worms hatched from their eggs that do the damage.

**ONLOOKERS LIT OUT.**

Said Jim Robinson, Negro on trial for stealing, "I calls on de Lawd to strike me down if I stole dat heifer." Thirty seconds later Jim had a fit, whereupon negro attendants at the courthouse, including witnesses, forthwith fled through nearest doors and windows.

**FRISKY FLASH.**

Lightning made a rough visit last week-end to the home of C. E. Pratt, Wigwams. Entering on the telephone wire, a boisterous bolt bounced into a bedroom, knocked daughter Hazel to the floor, smashed a lamp, stopped the clock, ripped off the kitchen door, made its exit through the sink.

**SUFFRIN' SHOE SOLES.**

For eager-footed pedestrians a twenty-five-mile race down Harrison county's new seawall will be held on May 10, when the wall will be dedicated. Prizes will await winning runners.

**SWIPED HIS CAR.**

Husbands whose wives run off in the family car without permission are watching the case of Mrs. Louis Jenkins, McComb, whose husband has her on trial for stealing his automobile.

**PROTESTING PUPS.**

Little boys' dogs whined disapprovingly in Water Valley last week as their young masters tied them fast to backyard fences. Fearful lest a scourge of rabies follow the wholesale biting of a mad dog which ran amuck there recently, city authorities are shooting strays on sight.

**FATFUL FIREMAN.**

Determined to put the Panama Limited through on time from Memphis to Canton, fireman John D. Moore last week shoveled coal while pains grew in his head and stomach. Defeated, he was removed from his engine at Winona, died two hours later.

**JAR-ACHUTE.**

**WORTHY WARDEN.**

To put more partridges on property he is pledged to protect, J. E. Warren, Marshall county game warden, has saved \$2,000 to be donated by him to the county for the purchase of new stock.

**WILD GOOSE TALE.**

Hunters' trigger-fingers itched avidly at McComb last week as many thousands of wild ducks and geese, seeking shelter from a storm, lighted on Lake. Disdaining, unconcerned, they paid no attention to curious natives who thronged the banks. Only the watchfulness of wardens kept game laws unbroken.

**NOT A SCRATCH.**

Not one hour in the past year has been lost through accident at the Mississippi plant of the Hercules Powder Co., Hattiesburg. Appreciative, the company has awarded a five per cent increase in pay.

**DOGS AND CAT.**

Wilkinson county dogs sniffed, whimpered, tucked their tails when hounds led them to tracks of a large cat, thought to be a panther, which has been killing sheep near Glister. In vain have armed farmers sought to kill or capture the prowler.

**BRIGHT BOBO.**

A national champion is Henry Benson Bobo, Clarksdale, who won first place and a trip to Europe in a contest conducted among U. S. high schools by the League of Nations Association. Second to Mississippi's Bobo came Marcia Naylott, Massachusetts.

Carabal Interests Firm Belivers in Crescent City—Build New Hotel.

Coincident with the opening of the new 15-story \$1,000,000 Hotel Marbere on the corner of Canal and Loyola streets, which materially increases the hotel accommodation facilities of New Orleans, comes the announcement from the B. G. Carabal interests that plans are now being made to construct its twin—a 25-story hotel with 500 rooms, to be erected immediately across the street.

Emile Weil, local architect, is to design the proposed structure, which the Carabals plan to complete in 1929. It will bear the name Bernarc.

The Hotel Marbere represents the final word in modern hotel construction.

It is situated convenient to the main business district of New Orleans and in a fast growing section of Canal street just off the principal commercial area.

Robert D. Cherry is lessee and manager of the hotel. B. G. Carabal Inc. are the owners.

A committee composed of Messrs. J. J. Yarborough, Bertin Johnson and Oswald Ladner at Lakeshore will give a dance at the "old School House" benefit baseball team on this Saturday, May 5th. The committee says, "A good time is assured all." Admission, 50 cents; ladies 25 cents. Lakeshore has a splendid line and fans are emblematic. There is every reason to believe the benefit dance is going to be an unqualified success.

Mr. and Mrs. J. C. McManamy, members of the business of Mr. McManamy, who reside at 1016 Carrollton, are the proprietors of the McManamy's, a new and modern restaurant with fine appointments. The restaurant is located on Carrollton, between the Bay and Carrollton, and the McManamy's are to be congratulated on their fine new restaurant.

## MISSISSIPPI LEGISLATURE ADJOURNS UNTIL EXTRA SESSION IS CALLED

(CONTINUED FROM PAGE ONE)

tee Chairman Scott refused to call the committee together, the Lieutenant Governor then called the committee and when the matter was presented to them, the majority of the Senate committee backed up the chairman in refusing to turn over the evidence to the House.

"I think it was uncalled for, and it was certainly discourteous, and I don't think I would be doing my duty if I did not let the members of the House know the disadvantages under which the committee has labored," declared Mr. Sillers.

Bills Failing Governor's O. K.

Among the bills which the Governor declined to sign were those providing \$1,059,500 to continue the work of building the new insane hospital in Rankin county. One bill, providing that the money not yet contracted by the State Hospital Commission do not lapse on July 1st, was signed. It will be remembered that the Governor strongly recommended in his inaugural address that the new insane hospital be completed and again in an address to a joint session of the legislature, he gave his official approval to the proposition. His declining to sign the appropriation bills, after they had passed both houses by large majorities, is rather surprising to the friends of the institution.

The 1928 appropriations for charity hospitals in privately owned hospitals, nine in all, of which are located in North Mississippi, received the executive veto and the hospitals will be without state aid in 1929.

The 1928 appropriations were approved. The administration bill providing for a State Charity Board was indefinitely postponed by the House during the closing hours, and in the veto message the governor mentioned that bill as being that one which would take care of the matter in 1929, provided, of course, the House will pass it. The State Charities Board bill places all charity matters in the hands of three persons to be dispensed as they see fit.
